Practical No. 7 : Rule-Based Chatbot using Pattern Matching

```
print("Chatbot: Hello! I am your AI chatbot.")
print("Chatbot: Type 'bye' to exit.")

while True:
    user = input("You: ").lower()

    if "hello" in user or "hi" in user:
        print("Chatbot: Hello! How are you?")

    elif "name" in user:
        print("Chatbot: I am a simple AI chatbot.")

    elif "how are you" in user:
        print("Chatbot: I am fine. Thank you!")

    elif "college" in user:
        print("Chatbot: Welcome to our college!")

    elif "bye" in user:
        print("Chatbot: Goodbye!")
        break

    else:
        print("Chatbot: Sorry, I don't understand.")
```
